

Specification Sheet Peart MasterView Twin

**200 x 50mm mesh size with twin horizontal wires for increased security.
Horizontal wires 6mm, vertical wires 5mm.**

Peart MasterView Twin features twin horizontal wires sandwiching single vertical wires. When compared with MasterView Profile, this heavier design increases the time it takes to break through the mesh making it a more secure solution.

Features	Benefits
Posts are 60 x 60 x 3mm SHS	Posts are the strongest posts of any comparable system
Posts are pre-drilled for standard stepping	Pre-drilled holes make it easy to step panels on sloping ground
Self-tapping fixing	No threaded inserts in posts which can spin making installation difficult
Magnetic fixing tool	Makes installation even easier
Wires protrude above top horizontal wire	Provides additional security Panel may be inverted if not required
Unique fastenings	Anti-vandal and tamper resistant, with nothing protruding from the back of the posts
A range of systems available	The design of the mesh panels means there is a solution for all fencing requirements
Manufactured in the UK	Extensive stocks are available for rapid despatch with crane offloading
